

Task 3

Scholarship Application Portal — UX Design Documentation

1. Problem Statement

Students find the scholarship application process confusing because eligibility details, required documents, and application status are not always easy to understand.

2. User Persona 1

Name	Ananya
Age	19
Role	College Student
Demographics	19-year-old undergraduate student applying for scholarships.
Goals	• Find suitable scholarships • Understand eligibility • Submit application successfully
Pain Points	• Confusing eligibility information • Unsure which documents are required • Difficult to track application status
Technical Proficiency	Intermediate

3. User Persona 2

Name	Rahul
Age	21
Role	Final-year College Student
Demographics	21-year-old final-year student looking for financial support.
Goals	• Quickly find relevant scholarships • Complete the application without mistakes • Check application status

Pain Points	• Long application forms • Unclear error messages • No clear confirmation after submission
Technical Proficiency	Advanced

4. User Journey Map

Stage	What User Does	Touchpoint	Experience
Discover	Searches for scholarship	Scholarship portal	■ Interested
Check	Reads eligibility	Scholarship details	■ Slightly confused
Apply	Fills application	Application form	■ Confused
Upload	Uploads documents	Document section	■ Worried
Review	Checks details	Review page	■ More confident
Submit	Submits application	Submit button	■ Relieved
Track	Checks status	My Applications	■ Confident

5. Site Map / Information Architecture

Flow of screens (boxes connected by arrows in Figma):
